Latin America	-	179,031,479 users	-	10.3%
Oceania	-	20,970,490 users	-	1.2%

The Cyprus Bridge Federation is using the Internet to develop and market Bridge in Cyprus and to put Cyprus on the world map of Mind Sports.

There are over 100 million Bridge players around the world and through our website we will be marketing to all of them.

We are looking for business partners that can help us achieve our ambitious objectives and also benefit from our marketing efforts. In business, as in life, there must be a win-win situation whereby both parties benefit.

We will be attracting the attention of many companies and individuals and if you are one of our business partners you will become part of our marketing campaign.

The Cyprus Bridge Federation is funded mainly by the Cyprus International Sports Federation and the Cyprus International Olympic Committee but, in these difficult times, funds available from Governments are limited.

In order to meet our aims we need business partners who can provide us with additional funding and products or services at the lowest possible costs. This could be by donations (cash or otherwise) or by providing products / services at cost.

If you provide your products at cost then the profit or margin that you would normally make can be treated as a sponsorship so you win by not paying for our extensive marketing and we win because we pay less for your product or services. This is a Win-Win situation for both of us.

So grab this opportunity of a lifetime and become a business partner of the Cyprus Bridge Federation. Any member of the Board of Directors will be happy to assist you in this matter.
